

## **Department of Electronics and Communication Engineering**

The beginning of Academic session 2018-19 witnessed the interaction of Second year EC students with eminent Alumni of the Department. Prof. (Mrs) A.H. Harkare arranged an interactive session for second year EC students to guide and inform regarding trends in communication industry. It was intended to give a bit of exposure to students' right at the beginning of second year so that they can start having a vision and can fix their goals for excellence in the core field.

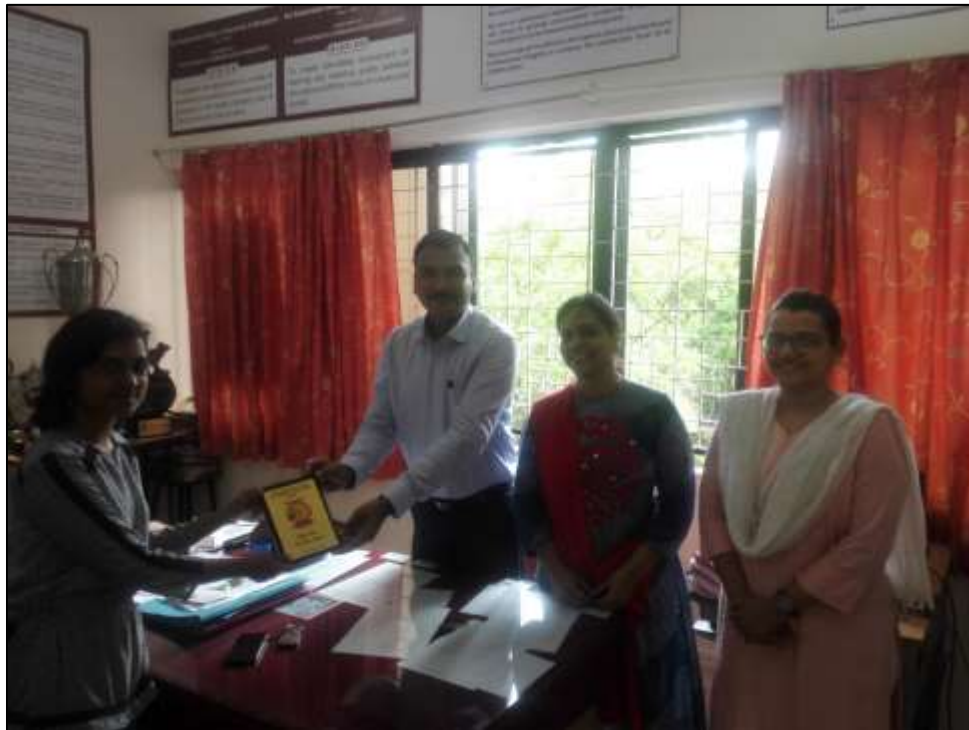

On 13<sup>th</sup> July 2018, Ms. Unnati Ashar (Alumni EC 2016 batch) discussed "Research opportunities in Electronics and Communication Engineering after BE" with second year students. Ms. Unnati Ashar is pursuing MS by Research programme from Indian Institute of Science Education and Research, Kolkata and has completed her B.E. from RCOEM, EC Dept in 2016. She has also worked in L&T Core for about a year before joining her higher studies.

**Ms. Unnati Ashar addressing Second Year Students**

She encouraged students to pursue higher technical education and also discussed the impact of pursuing PG in her professional uplifting. She briefed students about the recent trends in communication industry and the measures to be taken to increase probability of getting selected in core companies. The session was interactive and the students asked questions regarding process of getting selected in research institutes, GATE preparation and also industry exposure.

Students appreciated the way in which she guided them regarding entrance exam preparation and the encouragement he gave to pursue higher technical education. The department is striving to encourage students to pursue higher technical education.

**L-R Ms. Unnati Ashar being felicitated by Dr. R.B. Raut, HOD EC in presence of Dr. Mridula Korde, Alumni Incharge, RCOEM and Prof.(Mrs) Ankita H Harkare, Alumni Coordinator, ECE Dept.**
